

2021-2022

Safe return for In-person Model

Santa Cruz Elementary District #28 will safely return to in person school model four days a week with an online self-paced option for those that would like to continue on a 10-month distant learning program for the school year 2021-2022. Our first day of classes Monday August 2, 2021.

Although we will no longer offer a hybrid remote learning option, it is important to us that families have a choice for their unvaccinated children.

For the 2021-2022 school year, families can choose between:

- Traditional, in-person four-day regular schedule instruction
- 10-month self-paced online Program

The 10-month online program is a full-time, online learning program from home that offers:

- Four days per week-7 hours a day
- Self-paced learning (different from the curriculum utilized at school)
- Parent led instruction and supervision required in order for students to complete all assignments on time
- Limited direct interactions with a teacher
- Chromebooks will be provided to students

Please call the school directly if you are interested in learning more about this option and/or registering your child.
